Yeonji Ku | 3D Artist

[Portfolio] | [LinkedIn]

Profile

3D artist focused on stylized characters, environments, and game-ready assets. Experienced in modeling, sculpting, retopology, UV mapping, and real-time integration with a foundation in game design and cross-functional production.

Experience

INOVA Surgical Simulation | 3D Modeling · Internship **2026**

- Modeled and sculpted medical equipment, performing retopology and UV unwrapping to optimize topology and integrate high-detail normal maps.
- 3D-scanned a medical training mannequin and converted the scan data into a game-ready 3D model for use in a medical simulation game.

Re:Sillica | 3D Environment Artist · Capstone Project **2026**

- Developed a Serious Game for senior cognitive health using Unity and C#, focusing on dementia prevention; implemented a user-tracking analytics system to monitor gameplay patterns and iteratively optimized mechanics to maximize therapeutic outcomes

Skills

- 3D Modeling & Animating (Intermediate): Blender, Maya, 3Ds Max
- 2D Painting (Advanced): Photoshop, Procreate
- Programming (Intermediate): C#
- 2D Graphic Design (Professional): Photoshop, Illustrator
- SFX work (Basic): Digital Performer
- Language: English (Business-Level Proficiency), Korean (Native)

Education

Bachelor of Fine Arts: Computer Game Design, GPA: 3.93 Expected: Dec 2026

George Mason University Korea

Associate of Fine Arts: Graphic Design, GPA: 4.00 2022-2024

Northern Virginia Community College
